AMENDMENT

Dear Sir:

In response to the Official Action dated March 13, 1980,
kindly make the following amendments:

IN THE CLAIMS:

1. (amended) A monoclonal antibody of class IgG
produced by a hybridoma formed by fusion of cells from a mouse
myeloma line and spleen cells from a mouse previously immunized
with human T cells [and cells from a mouse myeloma line], which
antibody:

- a) reacts with essentially all normal human
peripheral T cells and cutaneous T
lymphoma cells, but not with normal
human peripheral B cells, null cells
or macrophages;
- b) reacts with from about 5% to about 10%
of normal human thymocytes;
- c) reacts with leukemic cells from humans
with T cell chronic lymphoblastic leu-
kemia but does not react with leukemic
cells from humans with T cell acute
